Group #	Academic Week #	Presentation Date	Paper/topic	Comments/Suggestions	Responding Group
1	Week 7	Wednesday 1 July 2026	**Paper:** Case Studies - data-governance-case-studies (RoyalSociety) Section 6. Personal Location Data	Consider adding a slide of solutions to address the problem given with the ethics of location data	6
2	Week 7	Wednesday 1 July 2026	**Paper:** Case Studies - data-governance-case-studies (RoyalSociety) Section 3. Smart Metering	Focus on section 3 only, consider researching on smart metering in Ireland/UK to give a more personal touch	7
3	Week 7	Wednesday 1 July 2026	**Paper:** Case Studies - data-governance-case-studies (RoyalSociety) Section 4. Data and new markets for services	Provide examples of such services that are currently active	8
4	Week 7	Wednesday 1 July 2026	**Investigation:** The Role of Data Governance in AI Ethics and Responsible AI Development	Exploring how strong data governance frameworks can help prevent bias and unfair decision-making in AI.	9
5	Week 7	Wednesday 1 July 2026	**Paper:** The personalization-privacy paradox	Consider adding a slide of solutions to address the problem given with the ethics of location data	10
6	Week 8	Wednesday 8 July 2026	**Paper:** "It wouldn't happen to me": Privacy concerns and perspectives following the Cambridge Analytica scandal		11
7	Week 8	Wednesday 8 July 2026	**Investigation:** DPC Case Studies (https://www.dataprotection.ie/en/dpc-guidance/case-studies-annual-report) - Any case study from the last 3 years	Any one relevant/detailed enough case study from 2019 - 2024	12
8	Week 8	Wednesday 8 July 2026	**Paper:** Privacy and Data Protection (Impacts of AdTech)		13
9	Week 8	Wednesday 8 July 2026	**Paper:** Privacy Issues and Data Protection in Big Data: A Case Study Analysis under GDPR		14
10	Week 8	Wednesday 8 July 2026	**Investigation:** Cross-Border Data Transfers Under GDPR – What Has Changed?	Investigate the impact of GDPR on international data flows, focusing on the invalidation of Privacy Shield, the rise of Standard Contractual Clauses (SCCs), and the challenges companies face in data transfers.	15
11	Week 9	Wednesday 15 July 2026	**Paper:** How Much Information?: Effects of Transparency on Trust in an Algorithmic Interface		16
12	Week 9	Wednesday 15 July 2026	**Investigation:** Bias in Healthcare AI – IBM Watson's Failures in Cancer Treatment	Investigate how IBM Watson's AI recommended unsafe cancer treatments due to flawed training data, raising concerns about fairness, explainability, and accountability in AI-driven healthcare decisions.	17
13	Week 9	Wednesday 15 July 2026	**Paper:** Accountability in artifcial intelligence: what it is and how it works		18
14	Week 9	Wednesday 15 July 2026	**Investigation:** Facial Recognition and the Right to Privacy – The Clearview AI Controversy	Investigate how Clearview AI scraped billions of images from social media for facial recognition, sparking legal and ethical debates around privacy, accountability, and AI governance.	1
15	Week 9	Wednesday 15 July 2026	**Paper:** Towards Explainability for AI Fairness by Jianlong Zhou, Fang Chen, and Andreas Holzinger	Page 375 - 386 of the pdf "Towards Explainability for AI Fairness "	2
16	Week 10	Wednesday 22 July 2026	**Investigation:** Dark Patterns in Digital Consent: Manipulating Users into Sharing Data	Investigate the ethical concerns surrounding "dark patterns," deceptive design choices that manipulate users into sharing more data than they might otherwise consent to. Discuss their prevalence in digital platforms and their impact on data governance. Comments/Suggestions: Research specific cases where companies have been accused of using dark patterns and analyze their regulatory implications (e.g., Facebook or Google).	3
17	Week 10	Wednesday 22 July 2026	**Paper**: Fairness and Abstraction in Sociotechnical Systems		4
18	Week 10	Wednesday 22 July 2026	**Investigation:** Regulatory Challenges of AI Systems Hosted in the Cloud	Explore the following: EU AI Act and emerging AI regulations, Data governance requirements for AI training datasets, Explainability and transparency in cloud-hosted AI services	5
